

PUMA LRD – LASER RANGE FINDER DESIGNATOR

Due to the connection to digital combat control systems, PUMA–LRD provides accurate information on targets, as well as guides guided munitions on them.

■ Identification (on the STANAG 4347) ■ recognition ■ detection

POINTER-RANGE FINDER

Types of guided ammunition	guided, laser-guided
Wavelength, nm	1064
Backlight range, km	10
Measuring range, km	20
Accuracy, m	2
Frequency, Hz	up 20
