

Rotary Barrels Machine Gun CS/LM12 / 7.62X51mm

TACTICAL MISSION

CS/LM12 is a six-barrel machine gun. It provides high-speed destructive firepower against life targets and unarmored light equipment within 1,000 meters.

The weapon can be mounted on movable platforms such as vehicles, helicopter, navy ships or on fixed sites.

PERFORMANCE & FEATURES

- Providing fierce firepower at a maximum firing rate of 6000r/m;
- Large fire dispersion and high firing rate to allow a mass destruction;
- External electric firing mechanism, smooth and reliable action;
- Six barrels and piston-free design, longer life expectancy;
- Equipped with a cartridge link and a large cartridge box to support sustained fire;
- Less recoil force, fitting various kinds of platforms.

Caliber: 7.62 mm

Cartridge: 7.62x51mm NATO cartridge

Gun body assembly length: 1,300mm

Weight: 90kg

Muzzle velocity: >845m/s

Ammunition belt box capacity: 1,000 rds (capacity can be selected)

Feeding method: cartridge link

Firing mode: continuous fire

Effective range: 1,000m

Firing rate: 2,500r/m(low speed)
6,000r/m(high speed)

Input voltage: 26±24 DC/V

Input power:<2.3KW

Elevating limit: -45°~ + 60°

Traversing limit:±180°

Service life: >60,000 rds
