

Portable UAV Defender

The **DZ-01 Pro X** is our 3rd generation device to neutralize the incursive UAVs, it's able to disrupt the operator's control of the drone and neutralize the UAV from 1km far away.

The remote defending makes the drone damage minimum and ensure the public safety.

- With light-weight less than 4.5 kilograms
- Up to 1km effective distance
- Overwhelming signals including 2.4Ghz, 5.8Ghz, GPS(USA), Galileo(Europe), Gallonass (Russia),Beidou (China)
- Two mode options forcing drones to hover or return to its point of origin.

Voltage	14.8V
Run-time	35-40min (Continuous working)
Max distance	Up to 1km
Body Weight	4.5Kg (with battery)
Antenna Type	2.4GHz+5.8GHz Dual-band Directional Yagi Antenna, GPS Antenna
Antenna V-plane	50°
Operating temperature	-10°C to + 50°C
Battery Type	8*Rechargeable Standard 18650 lithium ion Battery ,14.8V,10Ah
