

IMRE

INDIVIDUAL MEAL READY TO EAT

Developed based on experience gained by the Combat Food Ration users and CFR-T users in cooperation with leading experts in the field of military and outdoor activities.

The individual food ration concept meets requirements in terms of composition and nutritional values, enabling to sustain an active individual for 8 hours.

Individual food rations serve as a mobile nutritional option for individuals in environments where standard food cannot be supplied by common means

Advantages:

Mobile and easy to store.

Resistant to UV radiation and water. Excellent barrier properties.

Easy to use, ready to eat, no need to warm up.

Recommended use:

- extreme outdoor activities, Airsoft, military clubs, Adventure activities, Fishing & hunting
- boaters, tourists, truck drivers, campers and cottage dwellers
- in emergency situations after floods, snow calamities, etc.
- for everyone, who wants to be prepared for emergencies.
