The **Nitecore MH12GT** 1000 Lumen Compact flashlight brings the Grand Throw upgrade to the best-selling MH12.

The improved CREE XP-L HI V3 LED offers up to 349 yards throw and a peak beam intensity of 25700cd - a 190% increase from its predecessor!

The included 18650 rechargeable battery has also been upgraded to a high capacity 3400mAh cell which can provide up to 520 hours runtime on a single charge. Suited for tactical use, the MH12GT is easily operated via a dual tail cap and side switch user interface.

A single tail cap button allows for one-handed operation of on/off functionality while a conveniently located side switch lets users select from four brightness levels and three special modes.

Add power to the MH12GT easily with the built-in USB charging port and included charging cable.

Simply connect the MH12GT to any available USB power source and the blue charging indicator will turn off upon completion. (Note: The MH12GT needs to be turned on while charging)

The charging indicator also doubles as a power indicator to alert users of low battery levels.

Constructed from durable, aerograde aluminum, the MH12GT is built to withstand work and play. The slim 1" body is ideal for everyday carry making the MH12GT your new go-to flashlight.

Specifications

LED: CREE XP-L HI V3

Output / Runtimes (1x 18650):

High: 1000 lumens / 1hr 15min

Mid: 280 lumens / 6h

Low: 55 lumens / 28h

Ultralow: 1 lumen / 520h

Output / Runtimes (2x CR123A):

High: 1000 lumens / 1hr

Mid: 280 lumens / 3h 15min

Low: 55 lumens / 20h

Ultralow: 1 lumen / 300h

Beam Distance: 350 yards (320m)

Beam Intensity: 25700cd

Battery Type: 1x 18650 or 2x CR123A

Dimensions:

Length: 5.48" (139.2mm)

Head diameter: 1" (25.4mm)

Tail diameter: 1" (25.4mm)

Weight: 3.07 oz (87g)

Waterproof: IPX8, 2m submersible

Impact Resistance: 1.5m

Package Contents:

Nitecore MH12GT flashlight,
Nitecore NL1834 3400mAh 18650 battery
USB charging cable, holster pocket clip,
tactical ring, lanyard, spare rubber cover, spare
O-ring and spare USB port cover

MH12GT Features

- Utilizes a CREE XP-L HI V3 LED
- Maximum output of up to 1000 lumens
- Boasts a peak beam intensity of 25,700cd and a throw distance of up to 320 meters
- Integrated "Precision Digital Optics Technology" provides extreme reflector performance
- High efficiency constant current circuit board provides max runtime of 520 hours
- A side switch design offers access to 4 brightness levels and 3 special modes, ideal for outdoor applications
- Integrated power indicator beneath the side switch displays remaining battery power(patented No. ZL201220057767.4)
- Power indicator can also report battery voltage to the nearest 0.1V
- A Built-in charging module charges Li-ion batteries rapidly through a micro USB port
- Includes a Nitecore 18650 battery (NL1834 3400mAh)
- Features intelligent memory function (except for SOS and location beacon modes)
- Reverse polarity protection prevents damage from incorrectly inserted batteries
- Toughened ultra-clear mineral glass with anti-reflective coating
- Constructed from aero grade aluminum alloy with HAIII military grade hard-anodized finish
- Waterproof in accordance to IPX-8 (two meters submersible)
- Impact resistant to 1.5 meters
- Tail stand capability
