

## Toyota HILUX

The Armoured Toyota Hilux, known as 'the unbreakable workhorse' is a durable pick up truck which provides exceptional comfort along with the reliability you would expect from a armoured pick up. Giving you excellent performance and exceeding all tough standards in car safety, and now made even more safe and durable with our premium B6 armoring technology, providing you with the very best in durability and armoring from your pick up truck.

### **Ballistic Protection :**

All side armoring of passenger compartment (roof and verticles) to provide protection against 7.62 x 51 mm M80 NATO Ball ammunition according to CEN Level BR6 at at 0° obliquity angles.

Ballistic steel interior frame provides overlap and backup protection for the large surface main impact areas such as the doors and windows.

All door/window openings are overlapped. Vehicle's armour plates are stitch-welded using high-intensity MIG welders to ensure maximum strength ensure maximum strength.

Transparent armoring achieved with certified ballistic multilayer glass and polycarbonate

Door pillars reinforced to accommodate the additional weight of the armoured door and heavy duty door hinges are fitted to the armour to provide extra durability and stability.

### **Key Vehicle Features :**

Armoured to level B6

Heavy duty door hinges fixed directly to armoring

Spare wheel carrier with anti-theft lock

Customized interior design and trim fabrication to match the original OEM design.

Steel flat plated rear bumper

Fuel tank protected to level B6
